Construction of the Gardipee tank will include installation of approximately 0.38 miles of water line to connect to existing 12" services and construction of a 0.15-mile new access road off Laredo Road. Additionally, a new source water well will be sited, drilled, and developed as an additional water source that will provide water to the Reservation water system. Site pipe connections, electrical, and instrumentation/control systems will be installed to fully integrate the new well into the reservation water system.
