**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER Health Advisory**  
City of Havre Public Water Supply System (MT0000524)  
Potential Acute Health Effects Due to Unknown Condition of the Drinking Water

On 2/2/2024 and 3/1/2024 the Havre Water Treatment Plant failed to maintain the minimum required amount of disinfection. The City of Havre failed to notify the state as required after our disinfection failures.

On 2/29/2024 the Havre Water Treatment Plant experienced a failure in its filtration treatment. Because of the filtration failure, there is an increased chance that the water may contain disease-causing organisms. Treatment failure may have also led to the introduction of various chemicals into the distribution system above allowable concentrations. Due to the inability of the Havre Water Treatment plant to meet treatment requirements and provide consistent treatment, a HEALTH ADVISORY is being issued.

What does this mean? What should I do?

- During the month of February and March, treatment techniques were not met. We experienced a failure in filtration, disinfection, and our data collection and control system. Our source water quality changed significantly during these months as well.
- Using water produced from the Havre Water Treatment Plant for drinking, making ice, brushing teeth, washing dishes, making baby formula or food preparation may cause exposure to disease causing organisms along with chemicals above allowable concentrations.
- People with severely compromised immune systems, infants, and some elderly may be at increased risk. These people should seek advice about drinking water from their health care providers.
- General guidelines on ways to lessen the risk of infection by microbes are available from EPA's Safe Drinking Water Hotline at 1 (800) 426-4791. This is not an emergency at this time. Public notice should have been provided within 24 hours after these events.
- Inadequately treated surface water may contain disease-causing organisms. These organisms include bacteria, viruses, and parasites which can cause symptoms such as nausea, cramps, diarrhea, and associated headaches\*

These symptoms, however, are not caused only by organisms in drinking water, but also by other factors. If you experience any of these symptoms and they persist, you may want to seek medical advice.

What is being done?  
Havre water treatment staff are monitoring the source water conditions, treatment processes and the distribution system. Improvements to treatment capabilities, equipment, and operator training are being pursued. We will notify you when the Montana Department of Environmental Quality determines that the Havre Water Treatment Plant has demonstrated consistent treatment that is meeting all water treatment requirements and has rescinded this health advisory. For more information, please contact Trevor Mork, Public Works Director, at 406-265-4941.

**Our Beaver Creek Park needs YOU!**

The Hill County Park Board recently approved the establishment of a Finance and Rules Committee. This committee will be a permanent committee of the Board that will develop recommendations, advise the Park Board, and support management concerning financial matters as well as Rules for all Hill County Parks but primarily for Beaver Creek Park.

The committee will be five (5) to nine (9) members that are committed to the well being of our Parks, with an understanding of raising money, investing in Parks, and planning for the future. Two or three of these members will be Park Board members and the Park Superintendent while the other three to six positions will be filled by local citizens.

Responsibilities:

1. Periodic review of fees for all activities and uses occurring in the Parks.
2. Searching out and securing grants and other outside funding sources.
3. Overseeing fundraising activities in the interest of the Parks.
4. Forming long-range plans for the Park that we will leave to our children and future generations.

Our community has a good record of people's willingness to help the common good of the region. Beaver Creek Park is a natural resource gem to take pride in and provide input at the local level for all the public that uses it.

Please consider volunteering for this committee or recruiting/nominating someone to participate in this committee of the Park Board.

For more information, please contact the Beaver Creek Park Office: 395-4565, or talk with any of the Park Board Members or Commissioners. Applications for appointment to this committee are available at the Hill County Commissioner's office or by calling the Beaver Creek Park Office: 406-395-4565. Applications should be submitted no later than April 1, 2024
